

Instructional Leadership 2014/16

INSTRUCTIONAL

LEADERSHIP

programme

Currently the Board of Management are providing funding for training with Mr Barrie Bennett to;

Mr Mark O'Brien, Principal

Ms Aoife Kinsella, Teacher Leader

Mr William Walker, Teacher Leader

A striking feature of the Irish educational policy landscape over recent years has been the extent of change in a range of areas, within the context of the formalisation of the profession of teaching in the emergence of the

Teaching Council.

These changes include:

- junior cycle reform
- school self-evaluation
- literacy and numeracy
- initial teacher education and induction
- models of continuous professional development

The emergence of the Instructional Leadership Programme has coincided with this raft of policy change. It is evident that the programme offers teachers and schools an invaluable medium by which much of this change can be realised.
