

Study Skills Week

Study Skills Week

– *Exam Strategies* –

October 18th – 25th 2017

We are again running an initiative aimed at helping students understand how to study.

We hope to involve teachers, parents and the students themselves in this effort which will be rolled out during the week.

During this week:

- 6th year groups will have a presentation with a particular focus on setting and attaining goals. Recent past pupils Darragh Joyce and Donncha O'Connor will also address the group.
- 5th Years will focus on study techniques.
- 3rd & 2nd Years will look at various study techniques and goal setting.
- 1st years will have a presentation on general study skills tips and preparing habits for effective study.

It is planned for teachers to devote at least one class this week to subject specific tips on how best to study each particular subject.

There will also be a Study Skills seminar for

Juniors on Monday October 23rd and Seniors on Tuesday October 24th. This will run from 4pm to 6:30pm and will be delivered by Supergeneration – a company initially set up by past pupil Páraic Lawlor.

Download some of our presentations by clicking on the year group below.
